

As a resident of the Des Moines, Iowa community, I have been privileged to be able to receive K-LOVE national radio on my local FM translator. I listen to K-LOVE every morning, as do many of my friends. We are encouraged by the positive message of God's love and the great, encouraging music. There really is no other station like it in this listening area. I think the Des Moines community is well-served to have this option among its broadcast choices and I would be disappointed if it were replaced by another station not offering this unique, positive, family programming. I can be comfortable with K-LOVE on the radio in my family van because I know my young children will not hear anything inappropriate on K-LOVE. Thank you.
